# WHAT OUR CONSULTANTS SAY

## Luke says...

“I wanted to join Clear Edge because from the moment I stepped through the door I was made to feel welcome by everyone. The culture within the company is vibrant and fun and there is a great team environment. Being new to the industry it was important to me that I would receive excellent training and support to ensure I can embark on a successful career. The training I have received so far has exceeded my expectations. The company offers great incentives both financially and through various other reward/bonus schemes, this is what attracted me to Clear Edge, they reward hard work”

## Lauren says...

“I joined Clear Edge 9 months ago as a Research Consultant specialising in the betting and gaming industry. Having not come from a sales/recruitment background, it was a big change for me. But with regular inhouse training and support from my director Terry, I’ve had some great success in my role and I’m now making the transition into a full 360 recruiter. I’m excited to see what my future holds here, watch this space!”
